Education

KIET Group of Institutions **Nov 2022 – Present**

Bachelor of Technology in Information Technology *Ghaziabad, India*

- Coursework: Data Structures and Algorithms, Operating Systems, Database Management Systems

Experience

Kanbro Corporation — Software Developer Intern April 2025 - Sept 2025

- Develop and test applications using Node.js, Express.js, and other technologies, ensuring quality and performance.
- Design and implement frontend interfaces with React, HTML, CSS, and JavaScript, and integrate backend services using Node.js, Express.js and MongoDB
- Collaborate with cross-functional teams, contributing ideas for improving processes and delivering high-quality, timely solutions.

Projects

ChatNova - AI Chatbot : *MERN Stack, Gemini Api, ImageKit, Auth system, Realtime Comm*

- Built a full-stack AI chatbot using the MERN stack with secure user authentication (signup/login) and a real-time interactive React.js frontend.
- Integrated Google Gemini and OpenAI APIs for intelligent text generation alongside ImageKit for AI-powered image creation.
- Developed and deployed a scalable Node.js/Express backend with MongoDB to efficiently handle user data and AI requests.

Nuora - A social media app : *MERN Stack, Clerk, inngest, Web Socket, ImageKit*

- Built and deployed a full-stack social media app using the MERN stack with secure user authentication via Clerk.
- Implemented real-time chat, posts, feeds, stories, and follow/unfollow features for interactive user engagement.
- Integrated Inngest for background job processing and ImageKit for optimized media storage, ensuring fast and scalable performance.

Technical Skills

Languages: JavaScript, TypeScript, Java, Python, C, C++

Web Technologies : HTML5, CSS3, Ajax, Next.js, Three.js, Express.js, Node.js, React.js, Tailwind CSS

Platforms & Tools: Git, GitHub, VS Code, Postman, Docker, AWS

DataBase: MongoDB Atlas, SQL, MySQL, PostgreSQL

Soft Skill: Leadership, Problem Solving, Writing, Public Speaking, Time Management, Analytical thinking

Position & Responsibilities

FOSSC — Volunteer Jan 2023 – Dec 2023

- Assisted in frontend development using React.js, focusing on building responsive web designs for improved user experience.
- Conducted JavaScript code reviews to ensure code quality and maintainability across volunteer projects.

NSCC — Member May 2023 – Nov 2023

- Web Development Classes: Conducted 4-5 month classes for juniors on HTML, CSS, JavaScript, React.js, package managers, APIs, and Git/GitHub, supporting practical learning and growth.

Achievements

- **Freelancing** - Delivered a successful freelance projects through custom website and SEO optimization.
- **SIH** - Advanced Platform for Continuous Mental Health Monitoring and Support Services.
- **LeetCode** - Completed over 100 LeetCode problems, enhancing analytical and algorithmic expertise.
- **Open Source Contributions**: Delivered 500+ contributions on GitHub, including 15+ successfully merged pull requests and 5+ repositories starred, driving collaboration and boosting visibility in the developer community.
